We will play an initial 7 rounds to seed players for 2nd round Mixer (mixed doubles). Once the Men's and Women's divisions are played and players are ranked we will play a round robin in which each player in the women's bracket will be paired with an opposite player from the Men's division. We will have two tiers of mixed doubles based on the initial results. Games will be played to 11 points win by 1 (this may change based on final registration).

Winners will be based on total games won in both round robins combined. We will award to the top female and top male in the top bracket and the bottom bracket.

For more information and to register call 920-236-3400.
